TOP 10 TRAVEL TIPS FROM MASTERCARD

1

LOST & STOLEN CARDS DON'T PANIC

Click here for the list of emergency numbers. You can also call the collect number: 1-636-722-7111.

3

BE PREPARED

Make a list of the cards you'll have with you and the account numbers. Enter the 'lost & stolen card' number into your phone should you need to block your card.

5

MAKE THE MOST OF YOUR CARD

Know the services and insurances linked to your card. There are security and travel insurances or leisure services that you could benefit from. Check with your bank or financial institution ☺.

8

KEEP RECEIPTS

Keep receipts for card purchases so you can check the amounts charged on your statement when you return from your trip.

6

TRY NEW WAYS TO PAY

Think about mobile and other contactless payment methods for purchases under 25 EUR, they are so convenient on holiday!

9

LIVE PRICELESS

Travelling to your favorite city or enjoying a 'staycation' in your favorite city. Check out www.priceless.com and browse the special offers and experiences available for cardholders in Priceless Cities around the world.

2

CALL AHEAD

Tell your bank or financial institution when and where you're travelling. Fraudulent charges can be identified more quickly and your legitimate purchases are less likely to be held up.

4

KNOW YOUR PIN NUMBER

Never write down your PIN code on a piece of paper. If you want to keep it in your phone, look for a PIN keeper app to download.

7

MAKE SURE ITS RIGHT!

Check your statement and report fraudulent charges within 30 days. If something looks suspicious, call your bank or financial institution via the number on the back of the card.

10

DON'T PAY

Make sure you are protected. In many markets around the world, MasterCard has a zero liability policy so you are not held responsible for any unauthorized purchases.
